Generation Z: A Shift, not A Phase

Niki Narsana
F.Y. B.com

"Too sharp."
"Too lazy."
"Too rude."

These are some of the most common labels attached to Generation Z. Yet the reality is far more nuanced, dynamic, and exciting than these stereotypes suggest. To understand Gen Z is to recognize a generation that is informed, emotionally aware, and purpose-driven.

We are perhaps the most informed generation the world has ever seen. Growing up in a world shaped by technology and instant access to knowledge has allowed us to question, analyse, and form opinions with evidence. But what truly distinguishes Gen Z is not just information—it is emotional awareness.

We speak openly about emotions, something previous generations were often hesitant to do. We understand that words carry weight and that even the smallest remarks can leave lasting marks on someone's mind. What some dismiss as being "too sensitive" is, in reality, a deeper awareness of human impact.

Our idea of success has also evolved. Wealth alone no longer defines class or respect. To us, a truly "elite" person is someone disciplined enough to take care of their health, avoid harmful habits, pursue meaningful goals, and stay relentlessly devoted to their dreams.

Gen Z is also the generation that prioritizes mental health. We understand burnout, we value balance, and we refuse to glorify exhaustion as success. Hobbies are no longer "time-pass"; they are passions worth nurturing. Many of us quietly chase one simple but powerful goal—to make our younger selves proud.

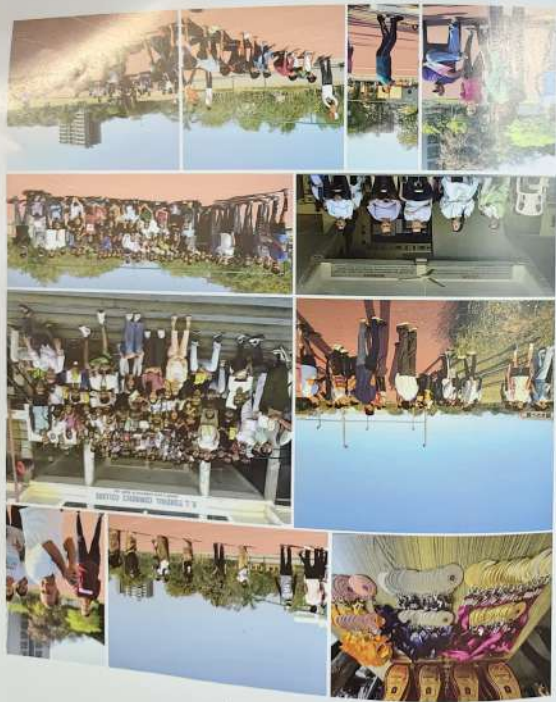

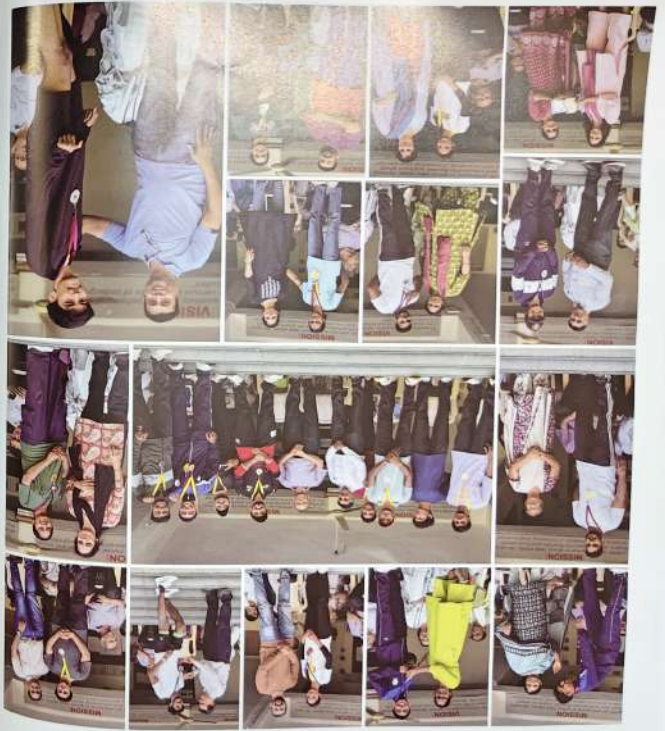

We are also learning to protect our energy. Gossip is no longer impressive, negativity is no longer entertaining, and cutting off toxic environments is not seen as rebellion but as self-respect. At the same time, we are more conscious of what may be offensive or insensitive, and we actively try to correct ignorance with awareness.

Interestingly, while parents often feel the struggle to understand their children, many Gen Z individuals understand their families far more deeply than they are given credit for.

And when it comes to work, we are not lazy—we are selective. We simply refuse to invest our time and energy in things that lack meaning or purpose.

Generation Z is not trying to be the "cool generation." We are trying to be the conscious generation.

Not just a generation that exists—but one that questions, evolves, and creates impact.

A Journey of Dedication and Meaningful Growth

Some journeys do not seek attention, yet they leave a lasting impact through sincerity, consistency, and purpose. The academic journey of Dr. Usha Gamit, Assistant Professor in the Department of Economics at R. J. Tibrewal Commerce College, is one such story.

Over the years 2025–2026, Dr. Gamit has steadily built her work around what truly matters—knowledge, relevance, and social connection. Her approach to academics goes beyond routine teaching; it reflects a deeper engagement with issues that shape society, especially in the context of rural and tribal development.

Her contribution to research during this period has been both thoughtful and relevant. With five published papers in reputed journals, she has explored themes that connect modern developments like artificial intelligence with real-world economic challenges. Whether it is examining how AI influences economic inequality or reflecting on opportunities and challenges in higher education, her work carries both depth and clarity. At the same time, her writings on Indian knowledge traditions and the cultural impact of globalization show a strong grounding in context and culture.

Equally noteworthy is her active participation in academic discussions beyond the classroom. During 2025, Dr. Gamit presented her work at conferences in Bafol and Gandhinagar, where she spoke on the growing role of artificial intelligence in business and education. At national seminars in Vyara and Raippla, she engaged with leaders such as tribal education, the legacy of Bhagwan Swami Munda, and the Indian knowledge system. These experiences reflect her willingness to learn, share, and grow through dialogue.

Her commitment to professional development is evident in the efforts she has made to strengthen her teaching practice. From completing a 24-day Faculty Induction Program to attending orientation courses on the National Education Policy (NEP 2020), and participating in a Faculty Development Program in

Ahmedabad, she has consistently worked towards aligning herself with evolving educational needs.

What stands out most in her journey, however, is her connection to the ground. Through her ongoing research projects on animal husbandry in Tapi district and agricultural innovation in South Gujarat, Dr. Gamit remains closely engaged with rural realities. Her work is not limited to theory—it seeks to understand and contribute to real lives and communities.¹

This connection is also visible in her participation in the 'Gramsabr' initiative at Ropde village, where she engaged directly with community development activities. It is this balance of academic work and social involvement that gives her journey a meaningful dimension.

Her efforts have been recognized as well. In September 2025, she was awarded a Certificate of Honor by the Gujarat Tribal Research and Training Society for her contribution to tribal education and research. Alongside this, she successfully cleared the CCC+ examination and qualified the GSET examination in 2026—achievements that reflect her academic discipline and dedication.

In many ways, Dr. Usha Gamit's journey is not about grand milestones alone, but about steady progress, thoughtful work, and a genuine commitment to learning and contributing. She continues to grow as an educator and researcher, quietly making a difference in her field and in the lives she touches.

Dr. Usha Gamit

Dr. Suchak

Dr. Suchak plays a vital role in shaping the academic and career paths of students. During the year 2025–2026, he has been actively involved in various leadership roles, including his position as a member of the Institutional Quality Assurance Cell (IQAC). He has also been instrumental in the development of the college's infrastructure, particularly in the area of digital resources. His efforts have been recognized by the college management, and he continues to contribute significantly to the growth and enrichment of the institution.

The Role of NCC in Shaping Future Leaders

The National Cadet Corps (NCC) serves as a vital intervention in the current scenario. It isn't just a preparatory ground for the military; it is a holistic finishing school that transforms an average student into a socially conscious, physically fit, and mentally resilient leader.

1. BRIDGING THE "SKILL GAP" IN THE MODERN ECONOMY

Today's employers, whether in the tech sector or civil services, are moving away from purely academic metrics. They are looking for soft skills—attributes that are core to the NCC curriculum.

Decision-Making Under Pressure: During trekking camps or firing practices, a cadet must make split-second decisions. This translates directly to the high-pressure environments of modern corporate boardrooms.

Time Management: In an age of digital distractions and "doom-scrolling," the NCC enforces a rigorous schedule. Learning to value every minute during drills is a skill that helps youth navigate both professional and personal life efficiently.

The "C" Certificate Advantage: In the current competitive scenario, the NCC "C" Certificate acts as a powerful differentiator. Beyond reserved vacancies in the Armed Forces, it carries weight in paramilitary forces, telecommunications, and several private-sector security and logistics firms.

2. MENTAL HEALTH AND PHYSICAL RESILIENCE

Today's youth often struggle with inactive lifestyles and the psychological toll of social media. The NCC provides a "digital detox" and a return to physical reality.

Physical Hardiness: Obstacle courses, long-distance marches, and early morning drills build a level of physical strength that is rare among urban youth today.

Mental Toughness: The NCC teaches cadets to embrace discomfort—by surviving in tents, enduring harsh weather, and maintaining a "can-do" attitude.

3. FOSTERING NATIONAL INTEGRATION IN A POLARIZED ERA

In a time when social media algorithms often create "echo chambers" and social polarization, the NCC remains one of the few truly secular and apolitical melting pots in India.

Unity in Diversity: At a National Integration Camp (NIC), a cadet from a remote village in Nagaland may share a tent with a cadet from a metropolitan city like Mumbai.

Cultural Exchange: By living, eating, and training together, youth learn to respect different languages, religions, and traditions. This fosters a "national identity."

that transcends narrow regionalism—essential for the social stability of a growing India.

4. LEADERSHIP AND THE "OFFICER-LIKE QUALITIES" (OLOs)

The NCC isn't just about following orders; it is about learning to lead. The current scenario requires leaders who lead by example, not just by authority.

Cadet: Learning self-discipline and the value of a "team-first" mentality.

NCO (Sergeant): Learning to manage small groups and take responsibility for others.

Under Officer: Planning events, managing logistics, and acting as a bridge between officers and cadets.

These roles instill Officer-Like Qualities (OLOs)—such as courage, strength, and cooperation—long before a student enters the workforce.

5. TECHNOLOGY AND MODERN TRAINING

The NCC has evolved to keep pace with the "Amrit Kaal" vision of India. It is no longer just about marching. Technical Wings: The Air Wing and Naval Wing offer exposure to microlight flying, aeromodelling, and ship modelling. In today's scenario, where drone technology is booming, this early exposure is invaluable.

Cyber Security and Awareness: Recent initiatives have trained NCC cadets in cyber hygiene, enabling them to lead awareness campaigns in their communities against cyber fraud.

CONCLUSION: THE "NEW INDIA" VISION

In the current scenario, India is poised to become a global superpower. However, a superpower is not built on infrastructure alone—it is built on the character of its youth.

The NCC plays the role of an architect of this character. It takes the raw, unhandled energy of youth and refines it into a disciplined force of "nation builders." For a student, the NCC is not just an extracurricular activity; it is a transformational journey that replaces "I" with "We" and "Apolly" with "Action."

In short, the NCC is one of the most powerful tools we have to ensure that today's youth are ready for the responsibilities of tomorrow.

Dr. Parash Gajjar

The Quiet Battle

Richa Mehta
S.Y B.Com

When everyone sleeps, I stay awake,
Books on my desk, my hands still shake.
I try to study, I try my best,
But my heart won't calm, my mind won't rest.

The night is quiet, the fear is loud,
Doubts surround me like a cloud.
What if I fail? What if I fall?
What if luck doesn't help at all?

Others speak words that cut so deep,
Their doubts don't fade, they never sleep.
Pressure builds, my chest feels tight,
Struggle just to breathe at night.

Exams arrive, I feel alone,
Lost in thoughts I've never shown.
I work so hard, yet still I fear,
What if success is never near?

But then I stop and close my eyes,
And see my family's hopeful smiles.
That single thought gives me my strength,
Makes every pain feel worth the length.

So even scared, I choose to stay,
And face the coming exam day.
Because their pride, their love so true,
Reminds me why I must push through...

ACADEMIC GROWTH - FACULTY

A Year of Academic Excellence and Thought Leadership

"Excellence is not an act, but a habit."

The academic year 2025-26 has been a remarkable journey of dedication, scholarship, and impactful contribution for Dr. Nilesh V. Suchak, whose continuous engagement in academic, professional, and spiritual domains reflects a rare blend of intellect and purpose.

Throughout the year, Dr. Suchak actively participated in prestigious academic forums and professional bodies. His involvement in the Board of Studies in Accountancy at Gujarat University and Faculty of Commerce at Nirma University highlights his significant contribution to curriculum development and academic governance. His nomination as a member of the Faculty of Commerce at Nirma University for a three-year term further underscores his academic credibility and recognition.

In the professional sphere, he was invited to participate in the GST Conclave at GCCI, where eminent officers including the Chief Commissioner of CGST were present. He also served as a member of the Indirect Tax Committee of GCCI, contributing valuable insights into evolving taxation frameworks. His participation in state-level seminars and national workshops reflects his commitment to staying at the forefront of GST law and professional developments.

Dr. Suchak has also been a passionate educator and speaker, delivering numerous lectures on diverse topics such as Indian Financial Markets, Management through Bhagavad Gita, Stress Management, and Values & Ethics. His sessions, conducted across institutions and platforms, have inspired hundreds of students and participants.

A unique dimension of his work is his deep engagement with Indian philosophy and spirituality. He delivered multiple discourses on the Bhagavad Gita and Upanishads and actively participated in spiritual and intellectual gatherings, reflecting a holistic approach to education—blending knowledge with wisdom.

Dr. Nilesh V. Suchak

Adding to his achievements, Dr. Suchak played an instrumental role in guiding students towards practical exposure and career growth. His efforts in facilitating internships and placements have directly benefited students.

One of the landmark developments during the year was the establishment of an Accounting Museum at R. J. Tibrewal Commerce College, under the leadership of Principal Dr. Chirag J. Trivedi. This initiative aims to provide students with a visual and historical understanding of the evolution of accountancy.

Dr. Suchak's academic journey also includes participation in faculty development programmes, national seminars, and workshops across reputed institutions. His role as a judge, speaker, expert, and coordinator across multiple platforms reflects his dynamic presence in the academic community.

In conclusion, Dr. Nilesh V. Suchak's year has been a testament to his unwavering commitment to education, professional excellence, and holistic development. His contributions continue to inspire students and enrich academia.

awareness among school students they may encounter. Our Government Program was on proper online behavior, safe use of the internet. The competition that tested their security, followed by a debate on cyber security, were students committed to their online habits.

Students actively participated in expressing their perspectives and ideas to express their thoughts and skills while spreading awareness.

During the college of inter-college of Nov Gujarat College, They enthusiastically participated in creating competitions, and creatively while learning.

During events, a debate was organized in the strong arguments and with the advantages and while encouraged critical thinking of the topic.

Aspects of the initiative where students used messages about cyber security, Vaibhavi, Krishna, and others, demonstrated remarkable conveying important short and engaging

action and enthusiasm as activities were truly, and commitment to the success of this

campaign proved to everyone involved. It not only associated with the and them with the safe online. During many more promoting continuous ensuring, and prepared to

Innovation Club Activities

The Innovation Club at R. J. Thiruvai Commerce College is an initiative of the Government of Gujarat in collaboration with the Knowledge Consortium of Gujarat (KCG). The main objective of this club is to promote awareness about the latest developments in technology and to develop critical thinking, creativity, and problem-solving abilities among students.

At the beginning of the academic year 2023-24, after the completion of Probodh Level 2 Training, the Innovation Club began its activities with great enthusiasm. The first activity organized was a Quiz Competition to encourage students to enhance their knowledge and awareness about current developments and innovations. Students from different classes participated actively and showed great interest.

In the month of October, Dr. Deval Jilariya attended a training program at KCG. During this training, new initiatives such as 'Sarthi' and 'Tirth Prokai' were introduced. These initiatives aim to guide students in identifying real-life problems and encouraging them to think of innovative and practical solutions.

Following this, the Innovation Club organized interactive sessions by inviting experts. Through these sessions, students were able to learn about the various challenges faced in the present world and the possible innovative solutions to address them. These activities helped students develop awareness about social, environmental, and technological issues.

A Debate Competition was also organized, focusing on environmental issues and challenges. Students actively participated and expressed their views on topics related to environmental protection and sustainable development. The debate helped students develop confidence, analytical thinking, and communication skills.

In addition, a Panel Discussion on the theme of Energy Conservation was organized. The discussion highlighted the importance of saving energy and adopting sustainable practices in daily life. The activity created awareness among students about responsible energy usage and environmental protection. The students of the college, Vaibhavi, Jonki, Tushi, and Tirth, visited LD University and learned about the Innovation Village exhibition.

The Innovation Club activities are coordinated by Dr. Deval Jilariya, Dr. Navita Sharma, and Prof. Jignasa Chauhan, who serve as the in-charge members of the committee. The club functions with the continuous support and guidance of our respected Principal, Dr. C. J. Trivedi.

Although the club has just begun its journey, it has already taken meaningful steps towards encouraging innovation and creative thinking among students. With continued efforts and active participation, the Innovation Club aims to achieve greater milestones in the future and contribute to building a culture of innovation and problem-solving among students.

Delving Into Talent, Tradition and Self Cultural Activities at RJTCC

The academic year at R. J. Tibrewal Commerce College (RJTCC) is not only about just the syllabi; it is much more...it is rich, textured experience; it is exploring our inner creativity, our organizational abilities, relationships that are forged for life and most importantly the testing of our limits and our resilience to go that extra mile needed to be winner.

The highlight of the first semester of the year is participation at the Gujarat University Youth Festival. The year begins with workshops on Dance, Theater, Music, Intellectual Arts and Fine Arts to constitute a team. The two most fiercely competed for trophies are the Folk and One Act play events.

The Folk team carried with them not just

choreography but the rich cultural spirit of Gujarat.

Garbo, deeply rooted in devotion and tradition, became a symbol of unity for the team. Students from different academic years came together, practiced tirelessly, supported each other, and finally performed with confidence on the Zonal and Inter Zonal stages and we won at both the levels. Despite pressure, exhaustion, and no small challenges (including health issues such as hairline fractures), the team displayed remarkable dedication and coordination, that brought even judges to seek us out to compliment, ultimately bringing pride to the college with their outstanding performance.

30

Another memorable experience was the One Act Play participation at the Youth Festival, directed by Pratik Bhatiya sir. The play was a dramatic adaptation of George Orwell's Animal Farm, a political satire that required students to step into completely different types of characters. Initially, many participants expected to portray human characters with dramatic personalities, but when the script options were discussed, the team collectively felt that Animal Farm would be the most engaging and meaningful choice. The idea of acting with the most emotive part of an actor, the face, hidden behind

animal masks was not the only challenge they faced. From translating a western premise to Indian context, to sets that maintain the originality of Orwell and include rural India was managed by the student body.

Alongside dance and dramatics, other students, Meet Khotri, Shailly Desai and Kuldeep Jangid, participating at individual events, the Youth Festival also became a platform for personal artistic journeys. Meet Khotri's participation in the Tabla (Percussion) category demanded a balance between academic responsibilities and daily musical practice. Although the final result did not bring a prize, the learning, confidence, and musical growth gained from the experience were far more meaningful than any trophy. Kuldeep Jangid participated in the Cartooning category at the Gujarat University Youth Festival, showcasing artistic creativity and adding another dimension to the college's representation at such a prestigious platform. The Youth Festival, therefore, became not only a stage for performance but also a platform for students to express their perspectives

through art and creativity.

The Gujarat University Youth Festival is a part of college life everyone should experience. It is not just the hours spent practicing, it is those hours we are tired beyond imagination but there are people around who cheer us up for that one last practice, it is in the joy that erupts on seeing Dalichand kaka bring the snacks freshly made in the college for the participants and it is in the hollowness that the team feel as the last event is over, the last costume packed and the last prop stored away; the wait for the next year has already begun.

Beyond competitions, cultural experiences also created lasting memories on campus. One such occasion was the farewell celebration for our respected former Principal, CA Dr. Hiten Parikh. Students and faculty came together to organize a heartfelt cultural tribute for him. Within just one day, students prepared dance performances, including a semi-classical dance on Radha-Krishna songs and retro song performances. Despite the limited time for preparation, the arrangements were made smoothly, and the performances were presented with enthusiasm and

respect. The surprise brought immense happiness to Dr. Parikh Sir, making the farewell both emotional and memorable for everyone present.

Another vibrant celebration was Republic Day at RJTCC, where patriotism filled every corner of the campus. Preparations began days in advance, with rehearsals and decorations. On the morning of 26th January, the campus reverberated with life at day break, beautifully decorated with tricolor rangolis and flowers. The NCC Cadre marching in their resplendent uniforms, the flag hoisting ceremony, speeches, patriotic songs and dances created a powerful atmosphere of pride and

unity. Cultural performances reflected the students' love for the nation, and the celebration ended with a unique RJTCC tradition — dancing to the beat of drums together on the college ground, blending patriotism with cultural joy.

The spirit of celebration continued with College Days "Unnat 2026," a three-day festival that transformed the campus into a vibrant space of creativity and fun. Preparations began with decorations across the campus, organized collaboratively by RJTCC, LIBBA, and LIBCA. Traditional Day brought colourful outfits, Garba

performances, and competitions such as Mehendi, Rangoli, Ekampore, Poster making, and Best Traditional Attire and Dance. The second day was the grand fair where students set up stalls with food, games, and creative products, making the campus feel like a traditional vacation fair from our childhood memories. The final day, Talent Clash 2026, showcased various performances including Dance, Singing, and Skit.

31

Activities of National Cadet Corps

The NCC unit consists of a strength of 18 cadets under the command of the Care Taker Officer. It is affiliated with the 1 Gujarat Battalion NCC, Ahmedabad. The unit operates under the Group Headquarters located in Ahmedabad. It falls within the Directorate of Gujarat, Dadra Nagar Havel, Daman and Diu. The Associate NCC Officer and Care Taker Officer is Dr. Pareshkumar Anandprasad Gajjar. The academic calendar for this unit is set for the year 2025-26. The enrollment details show participation from both SD and SW categories. There are 12 cadets enrolled in the SD (Senior Division) category. Additionally, 6 cadets are enrolled in the SW (Senior Wing) category. This brings the total number of enrolled cadets to 18. The unit maintains a balanced structure between male and female cadets. It focuses on discipline, leadership, and training activities. The NCC program aims to develop character and patriotism among students. Regular activities are conducted as per the academic calendar. The unit actively participates in camps and institutional programs. It also encourages cadets to take part in social service and community development initiatives. Overall, it represents a well-organized NCC sub-unit with dedicated leadership and structured enrollment.

COMMITTEE REPORTS

NSS : When Service Became a Journey

Every year brings new lessons for students, but some lessons are not found in textbooks. They are discovered on village roads, in busy markets, in quiet old-age homes, and in the smiles of people whose lives are touched by simple acts of kindness. The year 2025–26 became one such meaningful journey for the NSS volunteers who lived the true spirit of the NSS motto, "Not Me, But You."

Throughout the year, volunteers stepped outside the boundaries of classrooms and entered the real world where service, empathy and responsibility became their greatest teachers. What unfolded was not just a list of activities but a journey of learning, compassion and community engagement.

BRINGING GREEN HOPE TO A CONCRETE CITY

In a time when cities are increasingly turning into landscapes of cement and concrete, the volunteers decided to bring back a touch of green. Saplings were planted in grow bags and distributed to homes and residential societies across the city.

Each plant symbolized hope and responsibility. Volunteers encouraged families to nurture these plants, reminding everyone that protecting the environment begins with small, everyday actions.

A STEP TOWARDS A PLASTIC-FREE SOCIETY

Environmental awareness also led the volunteers to take up the challenge of reducing plastic waste. With patience and teamwork, they prepared thousands of brown paper bags which were later distributed to local traders and shopkeepers.

At the same time, volunteers actively collected more than 100 kilograms of plastic waste from the surrounding areas. What started as a small initiative soon became a meaningful step toward encouraging people to choose sustainable alternatives.

CELEBRATING HUMANITY THROUGH JOY OF GIVING

Festivals and national celebrations were transformed into opportunities for kindness. In collaboration with organizations such as Rotary Club, Shivam Charitable Trust and Lions Club, volunteers organized Joy of Giving programmes for underprivileged communities.

Clothes, food and essential items were distributed, but more importantly, these moments helped bridge social gaps. The celebrations became reminders that the real joy of any festival lies in sharing happiness with others.

MOMENTS OF WARMTH AT THE OLD AGE HOME

One of the most touching experiences for the volunteers was spending time with residents of an old age home that had limited resources. Conversations, laughter and simple companionship created moments of warmth for the elderly.

Volunteers also ensured that essential items needed for their daily lives were provided. For many students, these visits were deeply emotional and helped them understand the importance of compassion and respect for the older generation.

INSPIRING YOUNG MINDS IN SCHOOLS

The volunteers also visited government primary schools where they interacted with young children and encouraged them to take their studies seriously. Through activities, conversations and motivation, they tried to inspire curiosity and confidence among the students.

For the volunteers, these interactions were equally rewarding. Seeing the enthusiasm and hope in young learners reminded them how powerful encouragement can be in shaping a child's future.

SPREADING AWARENESS FOR A HEALTHIER SOCIETY

Health awareness became another important focus of the NSS activities. Through seminars, rallies and poster-making campaigns, volunteers spread awareness about diseases such as thalassemia, cancer and HIV.

These initiatives aimed to educate people and encourage open conversations about health, prevention and early diagnosis.

HEALTHCARE REACHING THE VILLAGES

In the adopted villages, regular health check-up camps were organized in collaboration with Mahavir Education and Health Care Foundation. Villagers received medical consultations and free medicines.

For many villagers who have limited access to healthcare facilities, these camps provided timely medical assistance and reassurance.

A GIFT OF LIFE: THE BLOOD DONATION DRIVE

Among the most inspiring activities of the year was the blood donation camp organized by the NSS unit. The response from the youth was overwhelming.

A total of 79 bags of blood were collected, and significantly, 58 donors donated blood for the very first time. For many volunteers, this moment became a powerful realization that a small act can save lives.

BUILDING STRONG BODIES AND STRONGER MINDS

The NSS unit also emphasized physical fitness and mental well-being. Volunteers regularly gathered on the university grounds early in the morning for running, jogging and yoga.

Surveys and discussions were also conducted to understand students' needs related to skill development, youth empowerment and personal growth.

A LEGACY OF ACHIEVEMENT AND PRIDE

Over the twelve-year journey of the NSS unit, the dedication of volunteers has brought immense pride to the college community. The unit has produced five Republic Day Parade holders, four State Republic Day holders and thirteen National Integration Camp participants.

These achievements reflect the discipline, commitment and leadership developed through the NSS platform.

A YEAR OF LEARNING BEYOND THE CLASSROOM

During the academic year 2025–26, the NSS unit successfully organized 68 different activities. Each activity became an opportunity for students to grow not only as individuals but also as responsible members of society.

Through these experiences, volunteers developed leadership, teamwork, moral responsibility, national spirit and strong character. More importantly, they created memories that will remain with them long after their college years.

THE SPIRIT THAT CONTINUES

The story of NSS is ultimately a story of transformation. It shows how young people, when given the opportunity to serve, discover empathy, responsibility and purpose.

As the year concluded, the volunteers carried forward a deeper understanding — that meaningful change begins with small acts of service. As long as young hearts continue to believe in the spirit of "Not Me, But You," the journey of NSS will continue to inspire communities and shape compassionate citizens for the future.

SUCCESS BEYOND THE SPOTLIGHT

સપનાથી સેવાના માર્ગે: એક પ્રેરણાદાયી સફર

જ્યારે હું આજે પાછળ ફરોને જોઉં છું, ત્યારે RJTCC ના એ દિવસો મારી નજર સામે તરત આવ્યા જાય છે. કોલેજના પહેલા દિવસે જ્યારે હું આ કેમ્પસમાં પ્રવેશ્યો હતો, ત્યારે મનમાં અનેક સપનાઓ હતા, પણ એક સપનું મક્કમ હતું — “મારે સમાજ માટે કંઈક કરવું છે.”

NSS: વ્યક્તિત્વ ઘડતરનો પાઠશાળા

મારી આ સફરમાં સૌથી મહત્વનો વળાંક NSS (National Service Scheme) રહ્યો હતો. મારા માટે તે શિસ્ત અને નેતૃત્વ શીખવાનો એક અનોખો તક હતો. NSS ના કેમ્પમાં કરેલી મહેનત, સેવાભાવ અને “Not Me, But You” ના મંત્રએ મારા જીવનમાં આદર્શ વિચાર જાગાવ્યો, જે આજે મને સાબરમતી મધ્યસ્થ જેલ જેવી સંવેદનશીલ જગ્યાએ ફરજ બજાવવામાં મદદરૂપ થઈ રહ્યો છે.

શિસ્ત અને સંઘર્ષ

કોલેજ જીવનમાં મેં શીખ્યું કે સફળતાનો કોઈ શોર્ટકટ નથી હોતો. એક તરફ લેક્ચર્સ અને અસાઇનમેન્ટ્સ હતા, તો બીજી તરફ પોલીસ ભરતી માટેની શારીરિક કસોટીની તૈયારી હતી. કોલેજના પ્રોફેસરોનું માર્ગદર્શન અને કોલેજનું સકારાત્મક વાતાવરણ હમેશા મને પ્રોત્સાહિત કરતું રહ્યું.

આજે જ્યારે હું સાબરમતી મધ્યસ્થ જેલમાં જેલ સિપાહી તરીકે ફરજ બજાવું છું, ત્યારે મને સમજાય છે કે કોલેજમાં શીખેલી શિસ્ત કેટલી ઉપયોગી સાબિત થાય છે. જેલ પ્રણાલીમાં સંઘમ, સજાગતા અને ફરજનું પાલન ખૂબ જ જરૂરી છે. આ ગુણોનો પાયો મારી કોલેજ જીવન દરમિયાન જ મુકાયો હતો.

મારા યુવા મિત્રો માટે સંદેશ

મારા જુનિયર મિત્રો ને હું એટલું જ કહેવા માંગુ છું:

સમયની કિંમત સમજો: કોલેજના ચાર વર્ષ તમારી આખી જિંદગી નક્કી કરે છે.

મોજ-મસ્તો કરો, પરંતુ લક્ષ્ય ન ભૂલો: આનંદ સાથે જવાબદારી પણ જરૂરી છે.

પ્રવૃત્તિઓમાં ભાગ લો: માત્ર પુસ્તકોમાં જ સીમિત ન રહો. NSS, સ્પોર્ટ્સ, આર્ટ્સ, ક્લબ્સ, સેમિનાર્સ — તે તમારા વ્યક્તિત્વને બિનારે છે.

ભાર ન માનો: સરકારી નોકરી કે કોઈપણ મોટું લક્ષ્ય મેળવવામાં સમય લાગે છે. તમારી મહેનત પર વિશ્વાસ રાખો.

મને ગર્વ છે કે હું RJTCC નો વિદ્યાર્થી રહ્યો છું અને આજે દેશની સુરક્ષા વ્યવસ્થાનો એક નાનો કિસ્સો બની શક્યો છું.

અનિલ કુમાર ચૌધરી
જેલ સિપાહી, સાબરમતી મધ્યસ્થ જેલ, અમદાવાદ

જય હિંદ!

More Than Just a Degree

When I look back at my time at R.J. Tibrewal Commerce College, I don't think of one big turning point. I think of small, consistent habits that slowly added up.

I had already decided to pursue actuarial science, so college for me was about building the right base—not rushing ahead, but strengthening what would matter later. The lectures, assignments, internal assessments, and discussions with professors—all of it created a steady rhythm. That rhythm teaches you something important: progress does not always feel dramatic, but it is happening.

Over time, I realized that understanding concepts clearly makes you calmer. When your basics are strong, you approach difficult problems with less panic and more structure. That mindset carries beyond academics. It changes how you prepare, how you think, and how you handle pressure.

Shreeth Nandi
Actuarial Analyst,
InsurTech Company

• Learning Beyond Academics :

College life extends far beyond academics. Representing the institution in sports tournaments and participating in activities outside the classroom, as well as in seminars and workshops, adds a different kind of learning. You learn how to manage wins and losses. You learn discipline without being told. You learn to communicate your ideas clearly. These experiences slowly build confidence.

• Building Professional Readiness :

When you walk into interviews, employers already expect technical preparation. What stands out is clarity—how you think through a question, how you respond when you do not immediately know an answer, and how composed you remain. Those qualities are shaped over time through participation, responsibility, and consistent effort.

Today, I work as an actuarial analyst at an InsurTech company in the growing field of parametric insurance. The work involves applying analytical thinking to real-world risk problems and learning continuously in a collaborative environment. The transition from student life to professional work did not feel sudden, but rather like a continuation of the habits built earlier.

Looking back, college was not about transforming who I was. It was about strengthening my foundation and giving my goals structure.

• Message to Students :

To current students, my advice would be simple: use your time intentionally. Build clarity in your subjects. Participate beyond academics. Seek guidance when needed. Small, disciplined efforts compound in ways you may not immediately notice—but they make a significant difference when opportunities arrive.

Your years in college are not just about earning a degree. They are about preparing yourself steadily and thoughtfully for what comes next.

Thank you.

RJTCC'S ACHIEVEMENTS

Academic Achievements

Pruthi Patel & Tarang Gidwani

We, Pruthi Patel and Tarang Gidwani, T.Y. students of R.J. Tibrewal Commerce College, participated in a National Conference organized by the Centre of Excellence - School of Law, Gujarat University, where we presented our research paper titled "Mental Well-Being as an Enabler of Innovation." Through our research, we explored how mental well-being plays a crucial role in fostering creativity, resilience, and entrepreneurial thinking, particularly within the evolving start-up ecosystem. Our paper highlighted that innovation is not driven only by technology or resources but also by a healthy and balanced mind-set that enables individuals to think creatively and adapt to challenges. Presenting our work at a national academic platform allowed us to contribute to meaningful discussions on the relationship between mental well-being and innovation.

Harsh Sengal

In essence, "Atheistic Pandemia" reimagines Hobbes' Leviathan through metaphors where "God" symbolizes supreme authority, the "Atheist" embodies relentless questioning of blind obedience, and "Religion" represents the herd mentality that normalizes outrageous nonsense via repetition. Systemic failures initiate a broken windows effect, with initial cracks eroding trust and spiraling into widespread societal decay. This cascade amplifies mental health crises—spiking anxiety, alienation, and depression (e.g., 25-30% rises post-2020 per WHO data)—while fracturing social well-being through polarization and Hobbesian anarchy. As dissent proliferates like a contagion, the herd's conformity unravels, risking irreversible entropy without authoritative renewal. Ultimately, this framework warns that unchecked questioning amid faltering systems threatens collective resilience, urging synthesis of inquiry and order to avert a state of nature.

Aryan Amin

Thrilled to share a major academic milestone: I've secured a spot in the Top 50 of my M.Com Semester 3 (Gujarat University). This accomplishment, the result of months of focused study in corporate finance, accounting principles, and strategic management—subjects that ignite my passion for financial analytics and data-driven decision-making. It's a pivotal step in my M.Com journey from B.Com foundations toward mastering advanced concepts like financial data science. Grateful for the guidance of professors and the drive of my peers. Excited for what's next!

Het Panchal

Alongside my CA articleship and college studies, I also pursued the CFA Program by the CFA Institute and successfully cleared CFA Level 1 in November, 2026. During my articleship at Deloitte, I was also honoured with the "Live the Dot" recognition, a special appreciation awarded by manager that reflected dedication towards work and commitment to going the extra mile. These achievements mean a lot to me, as they came while balancing late night audit work and CA studies, while consistently maintaining 8+ cgpa in college exams as well.

Ridhabanu Shaikh

Maintaining the rank of M.com sem 1 to 3 at Gujarat University across three consecutive semesters has been a result of dedicated effort, disciplined study, and a strong commitment to academic excellence. Each semester introduced advanced concepts and new academic challenges, which significantly strengthened my understanding and enhanced my analytical skills in the field of commerce.
